James Jones

158 Tone Rd, Wangaratta, Vic | 0402270259 | james.jones2086@gmail.com

Profile

Highly motivated and adaptable professional with over 14 years of leadership and operational management experience across hospitality, retail, and logistics. Currently completing a Bachelor of Computer Science, with an expected completion date of March 2026, and actively seeking remote placement and employment opportunities within the AI, data, and web development space.

Recognised for strong analytical thinking, exceptional communication, and problem-solving skills, with a proven ability to adapt quickly to new technologies, tools, and workflows. Experienced in working independently in fast-paced environments that require accuracy, attention to detail, and process-driven execution.

Brings a strong foundation in teamwork, stakeholder communication, and operational excellence, combined with a growing technical skill set and a clear focus on transitioning into technology-focused roles that value quality, consistency, and continuous improvement.

Experience

TAB/BOTTLESHOP ATTENDANT | PINSENT HOTEL | 2021 – PRESENT

Since 2021, I have worked at the Pinsent Hotel while studying my degree full-time, performing across multiple areas including the bar, TAB, and bottle shop. I am TAB-qualified and hold an RSA, providing exceptional customer service in a fast-paced hospitality environment. My role includes assisting patrons with wagering services, serving drinks, and managing bottle shop sales while ensuring compliance with liquor licensing, gaming, and workplace health and safety regulations. I handle stock control, including receiving, rotating, and merchandising products, and operate the point-of-sale system with accuracy in cash and EFTPOS transactions. I work effectively during high-volume service periods, balancing multiple priorities and maintaining a professional and welcoming atmosphere for customers.

WAREHOUSE PALLETIZER | ALDI | 2016-2020

From 2016 to 2020, I worked at Aldi as a Warehouse Palletizer and Forklift Operator, holding a forklift license and performing a range of critical warehouse functions. My responsibilities included operating forklifts to load and unload goods, backing trucks onto docks, staging loads for delivery, and assisting with order picking to ensure accuracy and efficiency. I collaborated closely with drivers, supervisors, and warehouse teams to maintain smooth operations and meet tight delivery deadlines. I adhered strictly to workplace safety procedures, equipment checks, and operational guidelines, maintaining a zero-incident record throughout my employment. My ability to work flexibly across multiple warehouse areas helped increase overall productivity and operational effectiveness.

AREA SUPERVISOR/CONSULTANT | MCDONALDS/COLES | 2001– 2015

Over a 14-year period, I held senior leadership roles with McDonald's and Coles, managing large-scale, multi-site operations. At McDonald's, I oversaw four restaurants with more than 400 staff, ensuring operational excellence, training, and performance management. At Coles, I was responsible for eight stores and over 1000 staff, driving business performance, compliance, and customer satisfaction across the region. I consistently outperformed KPIs in sales, profitability, and operational efficiency, while leading recruitment, training, and professional development programs that improved retention and built high-performing teams. My role required strong strategic planning, operational oversight, and people management skills, along with ensuring compliance with food safety, workplace health and safety, and corporate operational standards. I worked closely with regional and head office management to align business strategies with on-the-ground execution, delivering measurable improvements in both team performance and customer experience.

Qualifications

Cert IV Cyber Security
Bachelor of Computer Science
Advanced Diploma Retail Management
TAB Accredited
